

February 3, 1978

to the legislative employees explaining that, as did Mr. Gardner, Personnel Director, sent out a memo on that. The other thing, just mentioning again, that we went through this morning almost all the bills that we had on General File were bracketed bills to begin with and now many of them, and I realize and I am not saying anything about a situation where we have the inability to talk like Senator Mills and that sort of thing, however, next week when we take up these holding pattern bills, these bracketed bills that are in a holding pattern, try your level best to get to the bill when it is bracketed for a date certain and when we do get it up because it is long delayed. If not, bracket them to a longer period in the future, if you are not going to be ready because it is really getting us into a real bad time. We cannot plan our agenda if we are going to continue to bracket bracketed bills. So I just plead with you. It really is rather bad to come here and waste even 15 minutes in this kind of a session. But I am not going to go into any other General File bills because we have not warned the legislators and the general public we are going to take them up.

PRESIDENT: Mr. Clerk.

SPEAKER LUEDTKE: Yes.

PRESIDENT: He has got one other item.

CLERK: Mr. President, your Ag and Environment Committee gives notice of Exec session at 1:30 p.m. today. Signed, Senator Schmit.

PRESIDENT: Now, Mr. Speaker.

SPEAKER LUEDTKE: All right. Then I would move that we adjourn until 9:30 a.m.. Monday morning.

PRESIDENT: You have heard the motion. All in favor say aye, contrary say nay. We are in adjournment until 9:30 a.m., Monday.
